

## **LINCOLN CONSERVATION COMMISSION - NOTES**

**March 14, 2022**

Present: Sandra, Charlie, Katie, Jan, Judy

February minutes approved with no changes. Katie will send to Ann

Organizational: Sandra shared the idea of shifting roles each year (chair, secretary). We decided to discuss when more members are present.

Colby Hill ROW - Sandra is working on solutions to the erosion issues. VYCC projects coordinator is new. Learning about the VYCC process and having David Brynn look at the road leads us to understand this is not a good fit. As long as vehicles are using the road, hand built water bars won't do anything. Robert Turner (ROW owners) will walk with us this spring to discuss.

### Bee the Change & Pollinator Pathways

Offering to plant pollinator habitat. Jan suggests involving the school. Jan will follow up with both organizations

### Willard's Woods

- Map! Katie will make sure Ann gets the map for the website. Include a link to Avenza and description of how to use the map with it. FPF post letting people know about it
- Katie get back to Jamie on final BDR
- Next Steps
  - signage (Katie, Sandra, Lisa. Sandra will circulate email about a work session)
  - trail markers (Charlie)
  - trail names - Lets' name the loops! Involve the school. Katie will contact LCS teachers/Tory to see if this is a possibility this spring. We could come up with ideas/example

Abenaki Cultural Use program - we can recommend to the town to add the town forests to the roster. There are currently about 500 acres/6 parcels. Still, there are very few people using the lands in the database. Hence the database is somewhat symbolic.
